

PRESS RELEASE

FIDIA S.p.A. Supports Emilia-Romagna in the Aftermath of Flooding

San Mauro Torinese, June 12, 2023 - Fidia S.p.A. ("**Fidia**" or the "**Company**") - a leading group in numerical control technology and integrated systems for computation, scanning, and milling of complex shapes, listed on the Euronext market of Borsa Italiana - is committed to supporting Emilia-Romagna in the reconstruction and environmental recovery phase following the recent devastating flood that has affected the region, causing significant damage to its residents.

The company has launched a detailed analysis to examine the damage suffered by its employees during the event and is assessing measures to help its employees following the flooding, which also affected the area of the Fidia plant in Forlì. Fidia is proud of its employees and expresses gratitude for their exceptional dedication and commitment demonstrated during the recent weeks of emergency.

At the same time, in response to the flood emergency, Fidia is supporting the region by donating €10,000 to the Civil Protection Agency to contribute to the ongoing rescue and environmental recovery efforts. This commitment reflects the company's determination to actively contribute to the well-being of individuals and communities, providing tangible support during emergencies.

To expand the network of aid, as an international group, Fidia has invited all its employees, customers, partners, and stakeholders worldwide to actively participate in the reconstruction process in support of Emilia-Romagna. "We believe that together we can make a difference in helping the affected populations swiftly return to normalcy," stated Luigi Maniglio, Executive Chairman of Fidia S.p.A.

Fidia S.p.A., is a company listed on Euronext Milan (EXM), with headquarters in San Mauro Torinese (TO). It is one of the world's leading companies in the design, production and distribution of high-performance integrated milling systems, applied mainly in the automotive moulds and dies sector and in the aerospace industry. With over 40 years of experience and around 200 employees, Fidia Group stands out as one of the few industrial companies able to offer solutions covering the entire milling process, from the definition of the machining programme to the finished product. Fidia manufactures, sells and maintains all around the world: numerical controls for milling systems, high-speed milling systems, CAM software for milling complex shapes.
